In domestic competition an Ice Dance team consists of two athletes. These athletes will be identified as Athlete A and Athlete B. The listing of the team's name corresponds to their role (i.e., Athlete A / Athlete B).

When referring to ISU documents Athlete A must follow the requirements listed for the woman and Athlete B must follow the requirements listed for the man.

For elements where a level is given for each partner, the identifiers "A" and "B" will be used for each athlete in the element code (e.g., DiStA2+DiStB2).

General Information for Pattern Dances

First sequence must be executed on the same side as the judges' stand	If not, referee will stop the team and instruct them to restart on the correct side.	No deduction
Introductory steps	Must not to exceed the introductory phrasing of the music.	Referee and Judges apply GOE negative features for must start on the prescribed beat
Final pose time violation	Must reach final movement/pose within 20 seconds after completion of the last step of the Pattern Dance.	Referee will deduct for up to every five seconds in excess of 20 seconds after the last prescribed step to the ending movement/pose.
Music Each team must submit their own pattern dance music at competition registration, even if using Skate Canada Series 8 or ISU Music	Pre-Juvenile/ Juvenile: Music chosen must be from Skate Canada Series 8. Skate Canada Approved Music for Pattern Dances or ISU (not tune 6). For teams selecting their own music, the Referee will time the dance for correct tempo. To ensure consistency of process, the complete dance will be timed from the start of Step 1 until the end of the last step of the dance. Refer to the chart on page 13 for the range of tempo and duration of each pattern dance.	Pre-Novice/Novice: Music must be chosen in accordance with the rhythm of the Pattern Dance and may be vocal. Tempo must remain constant throughout and in accordance with the required tempo of the Pattern Dance plus or minus 2 beats per minute (plus or minus 3 beats per minute for waltz rhythms). If choosing a tune from the ISU Ice Dance Music, only tunes 1 to 5 can be used.
Warm-up: 3 minutes 30 sec. without music followed by 2:30 min. with music Maximum 6 teams	Pre-Juvenile/Juvenile: 2:30 min. of music will be from Skate Canada Series 8.	Pre-Novice/Novice: 2:30 min. of music will be tune 6 of ISU Pattern Dance music.
Interruptions/Falls	Resumed at the nearest technically practical point which must be after the point of interruption. The team may not skate the steps missed by the interruption.	If less than 50% of the section/sequence is completed due to a fall or interruption the section/sequence will have no value.
Pattern	Pattern correct means: <ul style="list-style-type: none"> Tracking is correct Set Pattern: the pattern generally agrees with the PD Diagram. Optional Pattern: the pattern may deviate from the PD diagram but fully utilizes the ice surface. If more than one sequence is required, restart and repetition are correct 	GOE feature Referee + Judges apply positive or negative feature

<p>Costume and prop</p>	<ul style="list-style-type: none"> • Must be modest, dignified and not give the effect of excessive nudity. • Must be appropriate for athletic competition – not garish or theatrical in design – yet may reflect the character of the chosen music. • For domestic competition, clothing requirements are gender neutral. There are no restrictions on skaters choosing to wear skirts, dresses, pants or tights. Note that competitors competing internationally should refer to ISU Clothing Rule 501. • Accessories & props are not permitted. 	<p>Costume and Prop Referee + Judges Deduction: once per program</p>
<p>Calling Process without Key Points</p>	<p>Technical Controller (TC) identifies Sequences/Sections of the Pattern Dance as Level Base when 50% of the Sequence/Section is completed by both partners; Level 1 when 75% of the Sequence/Section is completed by both partners.</p> <p>TC also identifies and calls falls. If a TC is not available at non-qualifying events, the referee may perform this function.</p>	
<p>Calling Process with Key Points</p>	<p>Technical Panel determines the Level of every Section/Sequence. At Novice level, two Key Points are called (Y, N, T) with a maximum of Level 3 if both Key Points are achieved.</p>

Marking

Pattern Dance: Judges mark the quality of execution of each Section/Sequence of the Pattern Dance using the Grade of Execution scale +5 to -5. The number of Sequences and/or Sections determines the number of GOEs for the given dance. Three Program Components are assessed (Timing, Presentation, and Skating Skills). The Program Component marking guide for Pattern Dances can be found in ISU Communication [2625](#)

Rhythm Dance and Free Dance: Judges mark the quality of execution of each element using the Grade of Execution scale +5 to -5. Three Program Components (Composition, Presentation, and Skating Skills) are assessed.

Evaluating the GOE of Sequential and Synchronized Twizzles, the One Foot Turns Sequence – Not Touching, PSt: Judges will evaluate these elements as a unit and must base their GOE on the quality of execution of BOTH partners.

See page 22 for links to GOE marking guides for Pattern Dances and Required Elements. These are also published in ISU Communication [2630](#) along with the Program Component marking guides.

The Referee and Judges also apply deductions for certain violations.

Additional information pertaining to Rhythm Dance and Free Dance

Pattern of Step Sequences

The pattern of the step sequence must maintain the integrity or basic shape of the chosen pattern. Some deviations in the chosen pattern are expected in order to complete the required turns. However, if the chosen pattern is clearly not recognizable, there will be a required reduction by the Judges for incorrect pattern.

Illegal Elements/Movements/Poses in Partnered Ice Dance –Technical Panel identifies and deducts accordingly.

The following movements and/or poses are illegal in Rhythm Dance, Free Dance and in the Pattern Dances including the introductory and concluding steps (unless otherwise stated in an ISU Communication):

Note: a brief movement through poses will be permitted if it is not established and sustained or if it is used only to change pose:

- sitting on the partner's head
- standing on the partner's shoulder
- ~~lifted partner in upside down split pose (with sustained angle between the thighs more than 45 degrees)~~
- lifting partner swinging the lifted partner around by holding the skate(s)/boot(s) or leg(s) only with fully extended arm(s)
- lifting partner swinging the lifted partner around without the assistance of hand(s)/arm(s) and the lifted partner holding only with feet around the lifting partner's neck
- point of contact of the lifting hand(s)/arm(s) of the lifting partner with any part of the body of the lifted partner is sustained with the fully extended arms higher than the lifting partner's head (the supporting arm must be sustained and fully extended above the head).
- Jumps of more than one revolution except jump entry and/or jump exit
- Lying on the ice

Illegal Elements/Movements/Poses in Solo Ice Dance –Technical Panel identifies and deducts accordingly.

The following movements and/or poses are illegal in Solo Ice Dance Competitions:

- Jumps of more than half (½) revolution (including back flips)
- 2 or more consecutive ½ rotation jumps (jumps are not consecutive if there are two or more steps in between)
- Lying on the ice (except where permitted)
- Toe Assisted Split Jumps or Edge Spilt jumps more than 90 degrees at the thighs.
(Split Jumps with toe assisted take off. [A Ballet Jump where the skater takes off and lands on the same toe with no rotation will be considered a hop and not a split jump]. Split Jumps with an edge take off where the legs are spread equal to or more than 90 degrees. Such as, but not limited to a Falling Leaf.)
- Flying entries for Dance spins
- Illusions* of more than one rotation.

*Definition Illusion: An illusion is a spin that has a basic position similar to the camel, but instead of remaining flat throughout the duration of the spin, the skater's body tilts up and then down so the head is close to the ice with the boot of the free leg extended upwards, creating almost a full split, while the skater is spinning

Definition of Free Dance Choreographic Elements (Partnered Ice Dance)

Choreographic Assisted Jump/Lifting Movement: at least three assisted jump movements performed continuously in a row; performed anywhere in the program

The following requirements apply:

- At least three in a row (same or different) performed continuously
- Cannot rotate more than one rotation in each assisted jump movement by the assisting partner
- Less than three seconds off the ice for assisted partner
- No more than three steps in between each assisted jump/lifting movement
- Either partner may do the assisted jump/lifting movement

Choreographic Character Step Sequence: performed anywhere in the program. The ChSt pattern must be different from the chosen pattern for the Style B step sequence. Both partners perform steps around the chosen axis and must proceed from barrier to barrier.

The following requirements apply:

- Any pattern from the following:
 - Diagonal, performed from corner to opposite corner
 - Long Axis, performed from barrier to opposite barrier, primarily along the Long Axis
 - Short Axis, performed from barrier to opposite carrier, primarily along the Short Axis
 - Circular, starting from the long barrier at the Short Axis, crossing the long axis on each side of the short axis and completing the circle at the starting barrier
- The requirement from barrier to barrier is fulfilled when at least one of the partners is not more than two metres from each barrier.
- May be in hold or not touching.
- Touching the ice with any part of the body with controlled movements is allowed.
- Touching the barrier at the start or finish of the Choreographic Character Step Sequence is permitted
- Distance between partners is permitted as a maximum of two arm's length apart.
- Retrogression: not permitted (Performing movements/steps around each partner during a Stop is NOT considered a Retrogression)

Choreographic Hydroblading Movement: performed anywhere in the program, during which both partners perform hydroblading movements

The following requirements apply:

- A low movement with the upper body almost parallel to the ice. The core of the body must be clearly positioned away from the vertical axis. No other part of the body other than the boot of the free leg is allowed to touch the ice. If any other part of the body, (other than the allowable boot/foot drag of the free leg) touches the ice it may be considered a Choreographic Sliding Movement
- Hydroblading movement by both partners at the same time for at least two seconds. The start and end of the Choreographic Hydroblading Movement does not have to be performed simultaneously.
- May be in hold or not touching
- At least one blade by each partner must be on the ice

Choreographic Lift: Dance Lift of minimum three seconds and maximum 10 seconds, performed after all the other required Dance Lifts.

Choreographic Sliding Movement: performed anywhere in the program, during which both partners perform controlled sliding movements on the ice.

The following requirements apply:

- Sliding movement by both partners at the same time on any part of the body for at least two seconds. The start and ending of the Choreographic Sliding Movement does not have to be performed simultaneously.
- May be in hold or not touching, or a combination of both and may also rotate.
- Controlled sliding on two knees or any part of the body will not be considered as a Fall/Illegal Element by the Technical Panel during this element
- Sliding Movement which finishes as a stop on two knees or sitting/lying on the ice is identified as a Choreographic Sliding Movement and a deduction for Fall/Illegal Element is applied.
- Performing basic lunge movement by both partners at the same time will NOT be considered as a Choreographic Sliding Movement.

Choreographic Spinning Movement: spinning movement performed anywhere in the program, during which both partners perform at least three (Junior/Senior) or two (Juvenile/Pre-Novice/Novice) continuous rotations in any hold.

The following requirements apply:

- On one foot or two feet or one partner being elevated for less than three rotations, or a combination of the three
- On a common axis which may be moving

Choreographic Twizzling Movement: twizzling movement performed after the required Set of Twizzles, composed of two parts.

The following requirements apply:

- For both parts: on one foot or two feet or a combination of both
- Distance between partners is permitted as a maximum of two arms lengths apart
- For the first part: at least two continuous rotations performed simultaneously and both partners must travel (cannot be on the spot)
- For the second part: at least one of the partners must perform at least two continuous rotations with up to three steps between the first and second twizzling movement, one or both partners can be on the spot or traveling or a combination of both

**Definition of Free Dance Choreographic Elements (Solo Ice Dance)**

Choreographic Character Step Sequence: performed anywhere in the program. The ChSt pattern must be different from the chosen pattern for the Style B step sequence.

The following requirements apply:

- Must begin with a stop or skidding movement within two meters of the barrier on either side of the rink.
- Must be primarily placed around either the short axis or long axis, the pattern must be different than the chosen Style B step sequence and must proceed from barrier to barrier. The requirement from barrier to barrier is fulfilled when the skater is not more than 2 meters from the barrier on each side.
- Touching the ice with any part of the body with controlled movements is allowed.
- Touching the barrier at the start or finish is permitted
- Permitted stops must not be longer than 5 seconds each
- Retrogression: not permitted (during a Stop, movements in any direction away from the point of origin up to approximately one meter will not be considered a Retrogression).

Choreographic Sliding Movement: performed anywhere in the program, during which both the skater performs a controlled sliding movement on the ice for a minimum of two seconds.

The following requirements apply:

- Continuous controlled sliding movement on any part of the body.
- May rotate and no maximum time restriction.
- Controlled sliding on two knees or any part of the body will not be considered as a Fall/Illegal Element by the Technical Panel during this element
- Sliding Movement which finishes as a stop on two knees or sitting/lying on the ice is identified as a Choreographic Sliding Movement and a deduction for Fall/Illegal Element is applied.
- A loss of control while executing a Choreographic Sliding Movement will not be considered a Fall as long as no additional support is required.
- Performing a simple lunge movement will NOT be considered as a Sliding Movement.
- Additional Sliding Movements will be ignored. Appropriate penalties should be taken if the movement meets the requirements for a Fall or violates other choreographic restrictions which would then be penalized by the judging panel, i.e. on two knees, or the weight of the body is on any another body part, it would be considered a Fall while lightly touching the ice with a hand would be a choreographic restriction violation.

Choreographic Spinning Movement: spinning movement performed anywhere in the program, A continuous spinning (rotating) movement with at least 3 full rotations which may be stationary or travelling.

The following requirements apply:

- On two feet, or alternate feet, or one foot and one knee/boot (but not two knees).
- If a skater performs a pause within the first three (3) rotations of the spinning movement, the movement is considered broken and will not be confirmed by the Technical Panel.
- Must not meet the requirements for a Dance Spin (i.e. 3 revolutions on the spot on one foot).

Choreographic Twizzling Movement: twizzling movement performed after the required Set of Twizzles, composed of two parts.

The following requirements apply:

- For both parts: on one foot or two feet or a combination of both and must travel.
- For the first part: at least two continuous rotations must be performed.
- For the second part: at least two continuous rotations with up to three steps between the first and second twizzling movement.
